

Use of Photography Within Our Church St Peter & St Paul's, Shepton Mallet

At St Peter and St Paul's Church, we take the issue of safeguarding and our responsibilities under data protection regulations very seriously. This includes ensuring the appropriate use of images of children, young people and vulnerable adults.

At our groups and events aimed at children and young people, photos and videos may be taken of those attending. Any use of images is underpinned by our Safeguarding Policy. We will only caption with first names, if appropriate, and will not publish personal information such as addresses or other contact details by which the person in the photograph or video could be identified.

These images are used to celebrate and share what's going on in our Church. The images may appear in Church printed material (for example a news sheet or display). We may also circulate images to local press, or upload them to the Church's website and Facebook page, and to Diocesan social media.

If you are attending a Children's or Young People's group or event, and you **do not** want you or your child to be photographed or videoed, please do let the group leader know.
